LIEGE FALLS, HER FORTS IN RUINS: CAPTURE OF BRUSSELS ALSO REPORTED.

LONDON, Aug. 19—Liege has fallen, her forts battered into ruins by the Germans' heavy artillery, but the defense of those forts to the very last held out against six German army corps. In Brussels there is no scene of revelry tonight for as this dispatch is filed it is reported the Belgian capital taken by the Kaiser's troops, lured to a battle which now seems as sure as fate will be fought on the historic field on which Napoleon lost his crown and France her control of Europe.

NAVAL ENGAGEMENT IN NORTH SEA HINTED BY THE OFFICIAL PRESS BUREAU.

British Troops in Contact With Kaiser's Armies, According to an Announcement by the Ambassador of the Republic in England—Movement of the Invaders Toward the Belgian Center Appears to Be Unchecked.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 18.—From the war zone come only brief reports of the activities of the vast German and allied forces opposing each other. The French officially report that the Germans have abandoned Saarebourg. The Liege forts are still said to be held and a Brussels dispatch says that the German movement towards the Belgian center seems to have been unchecked. The French troops are in contact with the Germans, but there is no important engagement to report," says an announcement of the French embassy at London. A significant statement issued by the British official press bureau is to the effect that desultory fighting has been going on between the British patrolling squadrons and flotillas and German reconnoitering cruisers. A certain liveliness is apparent in the southern area of the North Sea, the statement adds. There are rumors of a naval engagement about 100 miles off Harwich in the North Sea.

HUNDRED THOUSAND WANTED FOR THREE YEARS OF WAR.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 18, 9:30 p.m.—London displayed little excitement when it became known that British troops were in France. There were no crowds around the bulletins and no rush for newspapers. There was a stolid, repressed, earnest crowd in the parks, where the recruits are drilled, and at the barracks where the trained soldiers go through evolutions.
The general routine is little disturbed, except for the unceasing movement through the streets of troops, ammunition trains and hospital corps. Tailors and saddlers are rushed with business. The sign "swords and bayonets sharpened" appears in the cutlery windows.
The attendance at the music halls and theaters shows no diminution and many Americans spend their afternoons or evenings at the playhouses. "Britannia Rules the Waves," "The Marseillaise" and the Russian national anthem are played by the orchestras, the audiences standing.
As on Highlander regiment went through the Strand, its band played "Marching Through Georgia."
Private homes have been converted into hospitals, and the newspaper departments under the head of "What Women Can Do," or some similar caption, are the busiest.
Signs are posted that Earl Kitchener, the Secretary for War, needs 100,000 men for three years or to the close of the war.
There has been some protest against German and Austrian waiters being permitted to serve at the hotels and restaurants. One newspaper protests against excessive forbearance, as in-
stanced by the crowd at the railway station on the departure of the Austrian Ambassador singing, "Deutschland, Deutschland Uber Alles."
The stock exchange is closed, and the city is quiet. Clerks are carrying rifles and cartridge belts. The large business houses announce that places will be kept for those who enlist. The newspapers are proud of the effective manner in which they kept secret the movement of troops.
The seaside resorts face a ruined season and the hotels dread the return of Americans, for they would not be able to accommodate them. Food prices are lower, with the exception of sugar, which comes from Austria and Germany.
Cargoes of grain on the German vessels captured in the Baltic were sold today and brought current prices.

LONDON, April 10.—A wireless dispatch to the Exchange Telegraph Company says: "Paul Doumer, former French Minister of Finance who has just returned from the fighting line in Belgium, says that three dirigibles which were being reconnoitering over the war zone, were destroyed. Another fell into a forest and was captured."

"The spirit of the French soldiers according to M. Doumer, is strengthened by the feeling that their sacrifice is superior to that of the Germans."

[illegible]

WASHINGTON, Aug. 18. Addressing the American people, President Wilson today issued a

neutrality, which is the spirit of impartiality and fairness and friendliness to all nations. The spirit of the nation in this critical matter will be determined largely by what individuals and society and those gathered in the streets and in the squares on what newspapers and magazines contain, on what our ministers utter and on what our people proclaim as their opinions on the struggle.

The people of the United States are drawn from many nations and many races, and they are not all of one nature. It is natural and inevitable that there should be the utmost variety of sympathy and desire among them with respect to the European war and the cause of the conflict. Some will wish one nation, others another, to succeed in the struggle.

It will be easy to excite passion, and difficult to allay it. Those responsible for it will assume a heavy burden. It is a thing that the people of the United States whose love of their country and whose loyalty to its government

"Such diversions amongst us would be fatal to our peace of mind and to the success of our mission. It is the proper performance of our duty as the one great nation at peace, the only people in the world, to play a part of impartial mediation and peace between the councils of peace and accommodation, not as a partisan, but as friends to all."

"I venture, therefore, my fellow countrymen, to speak a solemn word to you, to the effect that we must, most subtle, most essential breach of neutrality, which may spring out of partisanship, out of passionately taking sides. In our country, which is neutral in fact as well as in name during these days that are to try the souls of men, it would be like a man to turn his back on his neighbor and thought as well as in action, as well as to curb on our sentiments as well as every tongue that might be tempted to construct a performance of one nation to the struggle before another."

The following figures of the newspapers making the best record in the cities named bear further testimony to the fact that The Times gives its patrons greater advertising value than any other newspaper in the whole United States.

the American that this great country of ours, which is, of course, the first in our thoughts and in our hearts, is now passing through a peculiar trial, a nation still endeavoring to exhibit the fine pulse of its democracy. The Wilson self-control, the efficiency of dispassionate action; a nation that neither in judgment on others nor in its own conduct is willing to be led by selfishness; a nation that knows and keeps herself free to do what it honestly and disinterestedly and truly believes for the peace of the world. It is this restraint which will bring our people the happiness and the security which the conscience for peace must demand for them."

Prior to the issuance of the President's official closure to the President's Commission, the Wilson Commission determined to take no part in a dispute between Japan and Germany over the situation in the Far East. While the Japanese position was not referred to in the statement, it became known that the Japanese position was not referred to because they were being made to contravert the United States in its endeavor in the Far East or in Europe.

The President is understood to be deeply concerned because naturalized Americans who come from countries where they take the same patriotic positions in the United States of the European war.

On the American side he has published an American position which he termed "phenomenal Americans," declaring that citizens of the United States are not to be identified with the Japanese, Germans, German-Americans, or other classifications of the sort. The President is understood to have promoted the issuance of his statement to

plans of the most extreme militarists in the Riksdag. Mobilization is proceeding perfectly, the people are calm and confident. The Swedes are determined to defend their neutrality and independence at any sacrifice. Interest in politics, which ordinarily slight, has been greatly increased. I have seen children attending school eagerly in the discussions. National feeling has not run so high before in a hundred years. I saw two market women nearly come to blows in a dispute as to whether Sweden ought to take sides with the Russians or with the Germans. There is great stagnation in business. Exports and imports have virtually ceased. Prices of food have risen considerably and credit on such basis is not extended to anybody. Many companies have been discharged and the salaries of others have been cut. The banks have limited to a minimum the right to draw money on demand and the salaries of mortgaging affecting all debts for the period a month. During the past week thousands of refugees of all classes have been sent through Sweden, which was the only way left open for their return from the East. The Swedes have shown a generosity and great hospitality shown to the Russians by the Swedish people which is marked contrast with the harsh treatment which has been meted out to the Germans arriving Germany. This has called forth many expressions of gratitude, including addresses from ordinary citizens as well as Ambassadors, and culminating in an official message of

WAR IN EUROPE HOLDS CONGRESS.

Little Hope for Adjournment the Leaders Declare.

Mark Time Schedule Now the Rule for Legislation.

Rivers and Harbors Bill to Be Passed on Shortly.

WASHINGTON, Aug. 18.—The war in Europe has materially altered the Congressional situation. Not many weeks ago, administration leaders were expressing the hope that the minority would restrain any filibuster against legislation, particularly the anti-trust programme, so that Congress might adjourn in ample time for participation in the fall campaign.

The Republicans, many of them also eager to get home for the present fray, promptly agreed that there should be no filibuster and that all should pull together for early adjournment.

Today, however, the adjournment prospect is eclipsed by multifarious issues and the Democrats themselves are putting the brakes on legislation.

Administration leaders, when asked about adjournment simply throw up their hands and say, "Time alone can answer; we cannot adjourn while half the world is broiling."

The legislative pace has been changed from double-quick almost to a mark-time schedule. Consideration of the Clayton anti-trust bill is not being hastened. Although most of the important issues involved were thoroughly discussed when the trade commission bill was before the Senate, they are again being reviewed in prolonged speeches.

Republican Senators were ready to vote on the bill Monday, but it now seems that all this week at least will be consumed by debate.

Further assurances that the session will be more prolonged than had been expected came today when Senator Kern, the majority leader, announced the decision of the party leaders to dispose of a river and harbor appropriation bill.

It had been before the Senate for weeks and was laid aside for trust legislation following a filibuster conducted by Senator Burton of Ohio. Then the word was passed around that the river and harbor bill would be left in the lurch by adjournment when trust legislation had been enacted.

Reconsideration of this programme is certain to hold attention of Congress two or three weeks at least.

In the House conservation legislation now is being prepared and it is probable that it will receive attention when it reaches the floor.

The necessity of emergency revenue legislation and being ready for any eventualities that may be precipitated by the European war is the underlying reason for the slowing up of Congress. There is going to be no rush to enact a stamp tax or increase internal revenues on commodities.

Although it is certain that additional government revenues must be provided because of the curtailment of customs, the leaders want to hear from all parts of the country before a law is passed.

There is no treasury deficit now and no immediate danger of one, consequently the Democrats say it would be best to go at the task of providing for the ultimate deficit deliberately and safely.

War risk insurance by the government also is to be considered, although a bill to provide for it, probably will not take up much of the time of Congress when the plan is worked out and a measure submitted. The bill may be introduced tomorrow in both houses.

Travelers in Germany Struck By Sudden Exodus of Japs Prior to Issuance of Ultimatum.

LONDON, Aug. 18.—Most of the American residents in Berlin will remain there, according to Mrs. Lucille Salisbury of Charlotte, N. C., who left on the American Ambassador's special train, and arrived in London today.

Fries were slightly raised there, she said, but the banks cashed American travelers' checks without discount. English-speaking people were advised by the authorities not to use that language on the streets, lest they be attacked by ignorant citizens.

Germany were struck by the sudden exodus of Japs prior to the issuance of Japan's ultimatum. All trains for the border carried Japanese bound for England. They apparently had been notified of the impending crisis.

They also were unable to get any news regarding the German Socialist leaders. They credit, however, according to Mr. Hyndman, the report that Carl Liebknecht was tried and shot for refusing to serve with the German army.

RICH BOSTON WOMAN ROBBED.

Safe in Country Residence of Mrs. Oscar Isagi Broken Into at Stockbridge, Mass.

STOCKBRIDGE (Mass.) Aug. 18.—A safe in the country residence here of Mrs. Oscar Isagi of Boston was robbed some time Monday night of \$25,000 in jewelry and money. The discovery was not made until today, when Mrs. Isagi went to the safe to get some money.

THINKS MILLERS HAVE COMBINED.

Federal Attorney Blames Them for Flour Prices.

Reports Big Increases in Middle West Goods.

Father Knickerbocker May Become a Storekeeper.

TOPEKA (Kan.) Aug. 18.—Testimony from flour producers suggests a possibility of a millers' secret combine on prices throughout Kansas, Nebraska, Oklahoma, Texas and Missouri," said a report sent today to Atty.-Gen. McReynolds by Fred Robertson, United States District Attorney here.

"Further testimony shows there has been a 10 per cent. increase on spiced pepper, canned meats and pork. I think circumstances indicate that sugar brokers and refiners have combined to raise prices, offering as their excuse the war in Europe."

SALESMEN BLAMED.

NEW YORK, Aug. 18.—Zealous and none too conscientious salesmen working on commission are largely responsible for the recent arbitrary rise in food prices in Greater New York, according to a preliminary report submitted today to the Commissioner of Weights and Measures. His investigators found that in many cases salesmen urged customers to take on supplies, declaring prices soon would soar. This is especially true as regards sugar and flour.

The report says jobbers and wholesalers have not acted in concert to increase prices. Retail meat prices throughout the city are coming down, it is said, in the face of a boycott by housewives.

GROCER KNICKERBOCKER.

New York City would be its own grocer, butcher and baker, under a plan adopted this afternoon at a conference of the heads of the city's departments.

Whether the city will establish factories, dairies and plants to produce cheese, butter, canned goods, etc., on a large scale, will be discussed at a meeting tomorrow of the Mayor's committee of citizens coping with the problems attendant on the sudden rise in foodstuffs.

Acting Mayor McAneny said, at the close of the conference, that he would favor the plan to have the city appropriate money without delay to establish municipal markets. Tentative plans are to place these markets under bridges and on other property owned by the city, and to supervise the sale there by farmers, commission men and other foodstuff dealers of their products.

These markets, it was announced, will be maintained till the end of the war in Europe, or till food prices return to normal.

SOLVES SECRET OF CHAMELEON.

PROFESSOR OF U. OF C. PROVES PIGMENT CELLS WANDER ABOUT.

BERKELEY, Aug. 18.—The secret of how the frog or chameleon can change its color, how the fish in moving from light to shadow may darken its hue, and how the crustacean can change and shift its shades through wide varieties of yellow, blue and black, has been solved by S. J. Holmes, associate professor of zoology at the University of California, according to an announcement from that institution today.

There has been a dispute, according to Holmes, as to whether the chameleon's properties were accounted for by a change of position of the pigment, or color, within its cell, or by the actual movement of the cell itself. Holmes removed pigment cells from a frog, and, under a microscope, claims to have proved that the cells wander and creep about to a considerable distance.

To Much Tango Causes Neuralgia

Violent neuralgia of the head generally attacks overworked women who lack sufficient sleep, fresh air and red blood.

With the prevalent craze for dancing at all times and places it is becoming noticeable that women whose blood is thin—anaemic—become subject to neuralgia pains when they dance too much and exhaust themselves of sleep and open-air exercise.

The woman who makes great demands on her strength, either by overworking or overdancing, must keep her blood in condition or suffer. The pain of neuralgia is simply a sign adopted by nature to show that the nervous system is being starved because the blood no longer brings it what it needs. The one great cause of neuralgia is debility with anaemia or bloodlessness.

Dr. Williams' Pink Pills are a tonic for the blood and nerves. They begin at once to enrich the blood and enable it to furnish the elements with the elements they need to restore them to health. A booklet on the home treatment of nervous disorders that will enable you to help yourself will be sent free on request to the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist can supply you with Dr. Williams' Pink Pills.

**LOWER CALIFORNIA GOVERNOR
ARRESTED AT ENSENADA.**

Representative of the Late Huerfano Regime is Charged by His Men With Confiscation of Funds for the Troops' Pay, According to Travelers' Reports.

(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)
SAN DIEGO, Aug. 18.—Gen. Francisco Vasquez, Governor of the northern section of Lower California, and his entire staff were seized by his own soldiers last evening at Ensenada, and placed in the custody, according to passengers on the steamer Victoria of the Naviera del Pacifico Company, which arrived this morning from Ensenada.

Gov. Vasquez is charged by the soldiers with confiscating 200,000 pesos of the troops' funds. He and his staff, his brother, Gen. Juan Vasquez, Collector of the Customs at Ensenada, and the Port Roman were arrested on the wharf, as it was believed they were to board the Victoria and come north with the funds for the Constitutionalists take over the government.

A manifesto in Spanish which was circulated by the soldiers at Ensenada was brought north by the Victoria passengers. It states the Governor has taken the troops' pay and various rents and funds collected. It is signed by Lieut.-Col. Fortunato Toranzo and Lieut.-Col. A. Cervantes, officers of the artillery troops of the Government stationed at Ensenada.

The Victoria passengers say the arrest was quietly made following a big banquet given by Gov. Vasquez to his friends. After the banquet he, his brother and staff walked to the wharf and were seized by the soldiers.

The soldiers have not received their pay for several months, they allege. They were incensed at the Governor's actions and refused to be left in Ensenada at the mercy of the Constitutionalists.

David W. Zarate, a merchant there who has been acting as Mayor under Gen. Vasquez, has been appointed by the soldiers as temporary Governor and Gen. Carranza has been notified of the action. The soldiers are now fortified word from him. The entire proceeding was peaceable and the passengers of the Victoria say that the town is now secure.

It was stated by Capt. Graciano, captain of the Bernardo Reyes, which arrived here yesterday from La Paz that Ensenada is strongly fortified and that Gen. Vasquez had defied the Constitutionalists to capture the Lower California capital.

Frederic Palacios, private secretary of Gov. Vasquez, arrived here tonight from Mexico and was amazed when told of the arrest of the Governor. He was unable to communicate with Ensenada, as all telephone and telegraph wires have been cut. He said he had not been in Ensenada for some days.

**FORGERY CHARGE AGAINST
PROMINENT SPECIAL
INVESTIGATOR.**

Acting on information furnished by Harry T. Hughes, a special agent of the Santa Fe Railroad, O. B. Goodwin, a special investigator said to be connected with the City Prosecutor's office, was arrested last night on a charge of forgery involved in the signing of a railroad ticket in the name of Mrs. Goodwin.

According to information obtained by the officers investigating the case Mr. Goodwin formerly was employed by the Santa Fe company, but of late has acted as a special agent for a commercial organization, as well as for the City Prosecutor.

After obtaining transportation for himself and wife, it is alleged by the railroad company that there were irregularities in connection with the signing of the tickets and the charge of forgery followed.

Deputy Constable Benjamin arrested Mr. Goodwin at his home, No. 8816 La Mirada avenue, Hollywood, last night and the prisoner was taken to the County Jail where he was held in default of \$3000 bail.

Judge Summerfield, who issued the warrant, was unable last night to give the case of the case, but stipulated that the railroad company was in full possession of the information warranting the arrest.

The prisoner is said to have worked for the West Coast Steamship Company, which is alleged to have issued the transportation to the German and according to intimations made by representatives of the latter company Mr. Goodwin is accused of having taken a woman not his wife on a trip East.

This phase of the case is denied by Mr. Goodwin and the case is expected to develop a sensation. It is said that the prisoner is said to have been one of the best investigators in the city.

At a late hour the prisoner was unable to give the bail demanded and was locked up at the County Jail, pending further investigation.

WAR AVOIDED FORTNIGHT AGO.

**Wilson Resisted Pressure to
Send Army Into Mexico.**

**Was Invited by Carbajal to
Order Advance Move.**

**Constitutionalists Maintaining
Order in the Capital.**

(BY A. P. NIGHT WIRE.)
WASHINGTON, Aug. 18.—Just how close the United States came to being involved in a war with Mexico as recently as a fortnight ago was revealed today by some high officials of the administration.

When Gen. Carranza abruptly rejected the overtures of the peace envoys sent by Provisional President Carbajal, and at the same time ignored the diplomatic efforts of the American government to bring about a peaceful entry of the Constitutionalists into Mexico City, drastic measures were urged against President Wilson.

Many members of the Cabinet—in favor of sending American troops from Vera Cruz to the Mexican capital—were prevented from doing so by the failure of the Constitutionalists to reach an agreement.

President Wilson, however, firmly resisted all pressure, arguing that the sending of American troops to Mexico City even on a mission of order would probably mean war with the approaching Constitutionalists. A few days later actual overtures came from the Carbajal government in an indirect way to the effect that if American troops would come to preserve order they would not be opposed, but assisted.

ASSURANCES BY LUJAN.

These assurances, according to official messages here, were given by Minister Lujan of Carbajal's Cabinet with the authority, it is said, of Mr. Carbajal. Other promises were made that the Constitutionalists would be treated as a friendly country and you can do your own country no better service than in showing yourself in France and Belgium in the true character of a British soldier by being invariably courteous, considerate and kind.

"Never do anything likely to injure or destroy property and always look on rioting as a disgraceful act. You are sure to meet with a welcome and to be treated as a well-conducted man. Your conduct must justify that welcome and that trust."

"Your duty cannot be done unless your health is sound, so keep constantly on your guard against any excesses."

"In this new experience, you may find temptation both in wine and women. You must entirely resist both temptations and while treating all women with perfect courtesy, you should avoid any intimacy."

"Do your duty bravely. Fear God and honor the King."

**COURT TO SETTLE
CHURCH DISPUTE.**

**PROPERTY HOLDINGS OF DEN-
VER EPISCOPAL CATHEDRAL
IN CHAOTIC STATE.**

(BY DIRECT WIRE-EXCLUSIVE DISPATCH.)
DENVER (Colo.), Aug. 18.—A suit which contemplates a final and complete adjudication of all disputes and other matters pertaining to property holdings of the Episcopal diocese of Denver, was filed in the District Court today.

The action is instituted by George L. Nye and other members of the Episcopal diocese of Colorado. Bishop Charles S. Olin, Dean H. Martyn Hart and Charles H. Marshall and other members of the committee in charge of the diocesan fund, are the defendants. Commissioner of Safety Nisbet, H. A. Hicks, public trustee, and all other persons claiming rights in the church property are made parties to the action.

The plaintiffs in the action recite that the various trusts have been so intermingled that it is impossible at this time to determine against which judgments and liens should lie. The court is petitioned to enter a decree determining the legal status of all the trusts.

**AUSTRIANS FIGHT
MOBILIZATION.**

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 19.—It is officially stated in Paris that the mobilization of the Austrian army was accompanied by much disorder and even open mutiny in many places, owing to the unpopularity of the war among many classes of people. This information is conveyed in a Paris dispatch to the Italy Telegraph, which continues:

"In many parts of Austria enthusiasm for the war is completely lacking and the people complain bitterly against spending blood and money in a useless cause."

"Near Kiel a statement adds that a large number of Czech soldiers have been shot at Prague for refusing to fight and that during the night of August 18, a whole Serb regiment of the Fifteenth Austrian Army Corps mutinied. A similar mutiny occurred in Bohemia."

**GERMAN FLEET
OFF GOTHLAND.**

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 19.—The Daily Mail's Copenhagen correspondent, in a dispatch dated August 16, says:

"The Berlingske Tidende states that part of the German fleet is in the Baltic Sea off the Swedish island of Gothland. Twenty German ships have been located. They probably belong to the reserve fleet from Danzig."

"Near Kiel a statement adds that a large number of Czech soldiers have been shot at Prague for refusing to fight and that during the night of August 18, a whole Serb regiment of the Fifteenth Austrian Army Corps mutinied. A similar mutiny occurred in Bohemia."

FOR MISSOURI GOOD ROADS.

Everybody Works at Highway Improvement. Even the Governor, Who Bosses Gang of Convicts.

(BY A. P. NIGHT WIRE.)
KANSAS CITY (Mo.), Aug. 18.—Residents of ninety Missouri counties spent today improving the highways in their vicinities and when the last tired worker had laid down his pick and shovel, and the teams had been hauled, it was estimated Missouri roads had been improved to the extent of \$1,000,000 by the 150,000 men, hard-working road day volunteers.

Although the day was hot, Gov. Major stuck to his task of directing the work of twenty-five picked convicts from the penitentiary. The Governor wore overalls and "bossed" the job as well as if he were a professional road builder.

"We will do \$2,000,000 worth of work in the two good-road days," said the Governor, after receiving reports from all over the State.

but the effect was a fall in prices, especially in maize.

The Nottingham lace factories are at a standstill, but the ship yards are unusually busy and the development board is spending \$15,000,000 on roads and other improvements.

A SOLDIER'S HOMELY.
Field Marshal Earl Kitchener's soldierly homely to the men of the British expeditionary force which he directed that every soldier should keep in his active service pay book, was textually as follows:

"You are ordered abroad as a soldier of the King to help our French comrades against the invasion of a common enemy."

"You have to perform a task which will need your courage, your energy and your patience."

"Remember that the honor of the British army depends on your individual conduct."

"It will be your duty, not only to set an example of discipline and perfect steadiness under fire, but also to maintain the most friendly relations with those whom you are helping in this struggle."

"The operations in which you will be engaged will for the most part take place in a friendly country and you can do your own country no better service than in showing yourself in France and Belgium in the true character of a British soldier by being invariably courteous, considerate and kind."

"Never do anything likely to injure or destroy property and always look on rioting as a disgraceful act. You are sure to meet with a welcome and to be treated as a well-conducted man. Your conduct must justify that welcome and that trust."

**SHIP CHARTERS
ARE EXORBITANT.**

(BY ATLANTIC CABLE AND A. P.)
GENOA (via Paris), Aug. 18.—Some of the Americans here are amazed at the exorbitant sums asked for the charter of ships to convey them home. Protesters to the Italian authorities brought forth the reply that they do not consider themselves responsible for the action of speculators in raising prices. The authorities have also pointed out that as a result of the war half a million Italian sailors have suddenly returned to the country in a state of destitution and will require immediate relief.

**HEAR GUN FIRE
IN NORTH SEA.**

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 19.—The Amsterdam correspondent of the Post says a telegram has been received there from Texel Island reporting heavy gun fire Tuesday morning in a western direction.

Texel Island is in the North Sea and is the southwesternmost of the Frisian Islands, forming part of the province of North Holland.

THE ZENTA WENT DOWN IN BATTLE OFF ANTIVARI, SAYS DISPATCH.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 19.—An official message received in Rome from Vienna says the Austrian cruiser Zenta was sunk in a naval battle off Antivari last Sunday, according to a dispatch to the Exchange Telegraph Company.

The cruiser Zenta, which was built at Pola in 1897, was 403 feet in length and displaced 224 tons.

A dispatch to the Central News from Rome says the Austrian torpedo boat No. 19 struck a mine at the entrance of the harbor at Pola, the Austrian naval base in the Adriatic, and went down. Only one member of the crew was saved.

AUSTRIAN DEFEAT.

(BY ATLANTIC CABLE AND A. P.)
NISH (Serbia), Aug. 17 (via London, Aug. 18).—The Austrians have been completely defeated near Sabac, twenty-seven miles west of Belgrade, according to government sources.

They fled toward Lesina and Lesina, pursued by Serbians, who cut up three regiments and captured fourteen guns.

SERBIANS IN PURSUIT.

(BY ATLANTIC CABLE AND A. P.)
LONDON, Aug. 18.—The Serbian Legation has received the following telegram from the Serbian Premier, N. P. Pachitch:

"The Austrians were completely routed in the mountains near Sabac and 15,000 annihilated. Fourteen guns were captured. The Austrians are fleeing in great disorder to recross the rivers Save and Drina, hotly pursued by our troops."

The image shows the front cover of a book. The cover is dark, possibly black or dark brown, with a fine, vertical ribbed texture. A vertical strip of lighter, possibly white or light gray, material runs along the right edge of the cover, suggesting a spine reinforcement or a half-binding style. The lighting is slightly uneven, with some areas appearing darker than others, highlighting the texture.

THE CITY AND ENVIRONS. EVENTS BRIEFLY TOLD.

Mail from New Mexico?

The New Mexico State Society will hold a picnic Saturday at Escondido. All who have ever lived in New Mexico are invited to bring their lunch and enjoy a good program of entertainment.

Back to Missouri.

Cecil Beason, 19, a barber, was arrested in a shop near Sixth street and Moneta avenue yesterday by detectives. He will be taken to Oskark, Mo., where he is charged with a statutory offense against Frances Marcum, 14.

Successful This Time.

Despondent because of illness, Mrs. Mary H. Harvey, 49 years of age, No. 1618 East Thirty-third street, took poison early yesterday morning and died ten hours later at the Receiving Hospital. Her daughters told the authorities that Mrs. Harvey had attempted suicide. Her husband, Frank Harvey, is a barber.

Honoring Mr. Jacoby.

Thirty-five department heads and their assistants of Jacoby Bros. gave their president, Leo Jacoby, a banquet last night in the red room of the Angelus in honor of his return from a six-weeks' trip to eastern markets. Mr. Jacoby spoke and made a number of effect which the war will have on the markets, outlining the methods by which American manufacturers will be able to turn disaster into advantage.

Give Doctor Badge.

County Health Officer Sawyer added to other prized possessions yesterday an engraved gold deputy sheriff's badge presented to him by the janitors of the county. Head Janitor Robinson was spokesman for his associates. He referred to many acts of kindness to the janitors on the part of Dr. Sawyer. In return, the latter made a speech of thanks.

More Travelers Heard From.

Mr. and Mrs. George Rector, well known locally, are en route to New York on the North German Lloyd liner, St. Paul, sailing from Liverpool last Saturday. Dr. O. O. Witherbee, of No. 1020 South Burlington street, crossing on the Celtic, reached New York the same day and will be home the latter part of the week. Both the Rectors and Dr. Witherbee barely missed the holidays.

Barely Save Themselves.

Awakened by the smoke rushing into his bedroom, W. R. Reynolds, a real estate dealer, discovered his residence at No. 548 Mt. Washington drive, after yesterday, and arousing his nephew, Howard, and a gardener, saved their lives. A moment after they escaped from the house, the ceiling fell. The fire began in the basement and spread so rapidly that none of the men had time to save even personal belongings. The two-story house was destroyed with a loss estimated at \$8000.

Nebraska Picnic at Bixby Park.

The managers of the Nebraska picnic to be held in Bixby Park on Saturday, in addition to other features of entertainment, have arranged for the presence of the Long Beach Band, Col. R. W. Richardson, H. R. Hinchshaw and others will deliver addresses, prizes will be awarded in many contests and to the oldest native-born Nebraska man and woman. All persons are expected to bring their lunch, but coffee will be served on the grounds.

Humorist Enters Shadow.

John K. Cheney, 62 years of age, who took an active part during his six years' residence in Los Angeles in the California Dry movement, all ways speaking from a humorous standpoint, will be buried this afternoon from his late residence, No. 115 South Gramercy place. He died Monday, leaving two daughters, Florence and Lillian. Mr. Cheney, during his younger days, was a prominent speaker in his native State, Vermont, and was noted for his humor.

TO BUY WATER BONDS.

State Control Board Will Take Three-Fourths of Issue for Plant at Escondido.

(LOCAL CORRESPONDENCE). ESCONDIDO, Aug. 18.—Word has been received from the State Board of Control that it will take \$75,000 of the \$100,000 municipal water-plant bond issue. The other \$25,000 will be taken by private parties. The bonds run from ten to forty years and bear interest of 5 per cent. The sale is at par, with interest from the date of the closing of the deal. The State Board of Control was interested in the bonds by President W. H. Baldrige of the First National Bank, who appeared before the board at San Francisco a few days ago. The plans for the installation of a municipal water plant will now be carried out with the least possible delay. They call for the location of the pumping plant along the Escondido River, east of

the city, the building of an impounding reservoir and the construction of a complete distributing system to all parts of the city. At present the water to the people of the city is supplied by the Mutual Water Company, which owns its distributing and impounding system.

The new management of the Escondido Utilities Company will substitute crude oil for gasoline as the motive power of the gas and electric plant, installing a Diesel engine of 225 horse power. The steam plant will be kept for an emergency plant. Day power for the city and parts of the valley is planned by the new company.

The funeral of Mrs. Elizabeth Bonebrake, 81 years of age, mother of two sons and one daughter, was held Tuesday afternoon.

PERSONALS.

S. C. Payson, general agent of the Santa Fe at San Diego, accompanied by friends, is passing a few days at the Alexandria, while here on a conference. Dr. Benjamin Bakewell, a practicing physician of Santa Barbara, and friends are tourists in Los Angeles from Santa Barbara yesterday and are at the Alexandria.

Among the San Francisco guests staying at the Clark are F. J. Huenkel and A. H. Kay, who have banking interests in the northern metropolis; B. W. McClymont, a manufacturer of ice, and cold storage warehouse operator; C. C. Teal, a mining man of Goconda, Ariz., is staying at the same hotel.

An automobile party of proportions arrived at the Hollenbeck yesterday from Reno and included Mr. and Mrs. S. H. Wheeler, Mr. and Mrs. R. A. Willis and Miss Emma Warren. Another tourist party at the hotel is made up of Mrs. William Nason and family of Winston-Salem, N. C., and Miss Caroline Ray of Norfolk, Va.

D. C. Collier, former director-general of the San Diego Panama-California Exposition and president of the new railroad from Denver to San Diego, is passing a few days at the Angelus. George A. Stoneman, son of former Gov. Stoneman, and himself a prominent attorney of Arizona, is registered at the same hotel from Phoenix.

W. A. Farish, one of the directing engineers in the construction of the Roosevelt dam, formerly of New York City, is passing a few days at the Van Nuys, where he is registered from Phoenix. A large automobile party arriving at the hotel yesterday from San Francisco included Mrs. Alfred R. Kelly and Mrs. Edward Hamlin and members of their respective families.

J. B. Moore, Hongkong exporter of rice and peanuts, who has been visiting friends in the United States, is passing a few days at the Westminster, staying in the Orient on account of the uncertain date of leaving of any vessels from San Francisco to foreign ports. Mr. and Mrs. A. I. Shoop are tourists in Los Angeles from the Westminister, where they registered from Bosworth, Mo.

George Schenck, Jr., importer of thread, who with Mrs. Schenck is registered at the Lankershim from New York, declares that there will be no great rise on that valuable little commodity, owing to the fact that American manufacturers will have no difficulty in securing American cotton. Imported thread may become a thing of the past if the war continues for any length of time, according to his judgment.

S. L. Rudden of New York City arrived at the Hayward yesterday from New Orleans. He is interested in shipping on the Atlantic Coast, the Gulf of Mexico and Cuba. Jacob Rawak of the Hayward has just returned from New York, where he visited his two sons, one an attorney and the other a milliner in the wholesale trade. He also stayed for a few weeks in Montgomery, Ala., where another son operates an electrical store.

Closing Argument
in Sensational Trial.

Mrs. Margaret Rayner.
Whose sudden death early yesterday morning formed a dramatic climax to one of the strangest trials in court history.
had followed the trial day by day were present yesterday to hear the closing arguments of Ralph W. Schoonover, attorney for Genelia, the son-in-law who is contesting the suit.
As Mrs. Rayner's guardian and item, A. F. MacDonald, the plaintiff, alleged that Helen May Hubbs, the daughter, had practiced many forms of cruelty on her mother, refined and otherwise, to induce her to deed away her property. During the presentation of the plaintiff's case it was related that Mrs. Rayner had a curious white powder that deprived the old woman

This is the odd series of misfortunes which have attended those acquiring title to the really involved in the Williamson case.
Its original purchaser, Thomas E. Emerson, dies of cancer shortly afterwards.
His will disappears and the property immediately is involved in bitter litigation among the heirs. The widow wins and the defeated brother appeals.
Mrs. Emerson transfers the property to C. E. Williamson in return for stock in the National Tuna Company and against vigorous protest of other heirs.
Williamson mortgages it to A. A. Hunt. Proceeds swallowed up without visible return.
Finding stock worthless, she says, Mrs. Emerson sues to recover deeds. Williamson transfers them to his mother-in-law, May and a mysterious Jack Woods, who often was mentioned but who never materialized, had doped Mrs. Rayner, giving her a curious white powder that deprived the old woman

HOLD YOUR HAT!
Advance in Price of Men's Headgear Is Anticipated if European War Continues.
Hold onto your hat! Not that it is in danger of being blown off, but because you may have to pay higher for the next one.
Hat manufacturers throughout the country are looking for an advance in men's headgear if the war in Europe continues. Felt goods are imported in large quantities, but the principal source of the advance will be the depletion of the supply of chemical dyes.
America may establish her reputation, however, as the chief source of supply for the world's hats. It is believed that factories in this country will soon be operating at capacity, which they have not done for a considerable time.
In the manufacture of hats Americans will probably have to fall back on the ingredients formerly used in dyes made in this country. These were mostly secured from wood. Prices for European dyes in the East are about 10 per cent. higher than a month ago.
Hat manufacturers in the East think that there will be an advance of 15 to 20 per cent. in the wholesale price of men's headgear soon.

AMBITIONS ARE
COMING TRUE.
SHIPPING REVIVAL REMARKABLE SINCE CANAL OPENING.
Los Angeles Receives Benefits of Increase in Coastwise Trade Brought About by Addition of Many Ships to Fleet Operating Out of This Port.
A remarkable revival of shipping on this Coast has been coincident with the opening of the Panama Canal. Further proof of this was the announcement yesterday by the Luckenbach Steamship Company of the chartering of the Pacific-Alaska liner Admiral Schley and Admiral Dewey to bring cargoes of freight through the canal from New York on their maiden voyages to these waters.
The Independent Steamship Company also followed up its application Monday to the Harbor Commission for a lease of facilities on Municipal Pier A by the announcement that, beginning tomorrow, the steamer Arline will receive and deliver freight to the Pacific Electric and Southern Pacific through the Outer Harbor Dock and Wharf Company in addition to the present connection with the Salt Lake at East San Pedro. The Arline was recently purchased by the Independent Company for service between here and San Francisco and Eureka. It has accommodations for 140 passengers and a freight-carrying capacity of 1600 tons.
The Admiral Schley and Admiral Dewey are sister ships to the Admiral Farragut of the fleet of the Pacific-Alaska Navigation Company and were recently purchased by that concern to furnish additional service between San Francisco and Seattle and Tacoma. This concern offers through routing of freight to this city in connection with the Pacific Navigation Company. It also has service from Seattle to Alaska ports during the season.
The two new boats will be among the finest in Pacific coastwise service. They each have a length of 300

prisoner for the last three months.
That she fainted was not due to shame, but to pride. She had taken her husband from the company of another woman and virtually led him by the ear to jail. She had seen him locked behind the thick iron bars, and the farewell which floated out to her was this:
"Don't put yourself on the back; you'll be behind here some day yourself, never fear."
Yesterday the prophecy came true. Both remembered: the wife swooned and the husband only smiled.
The two were married nine years ago in Hannibal, Mo., after a romantic courtship. Mrs. Lee was hardly out of short skirts when she was led to the jail. Her domestic life was one of happiness until four years ago, when they separated in Riverside. Divorce was considered and rejected; they were to live apart, but Lee was to support her. Shortly after the separation, she says, the remittances of the husband became irregular and then stopped altogether. For four years Mrs. Lee sought to learn his whereabouts. Finally, on May 22 of this year, she saw him on Broadway. Learning on his arm was a young woman. Mrs. Lee took it upon herself to "shadow" them. The couple went to an apartment-house on South Hope street. There they were known as man and wife, Mrs. Lee learned. Also she learned why the payments had stopped.
She marched in upon the startled husband and the more startled "affinity."
"You two pack your trunks and go your separate ways," she directed. "I will return tomorrow to see that you have done so."
The next day she returned. Lee and the woman, Mrs. Laura Laycock, were still there.
TAKES HIM TO JAIL.
"Come with me," commanded Mrs. Lee. The two went with her.
She took them to the office of City Prosecutor McKeeby. A complaint alleging violation of the rooming-house ordinance was issued. Mrs. Lee escorted her husband to jail. The next day he was severely scored by Police Judge Chesbro and sentenced to serve one year in jail. Lee was dumbfounded—he had expected a light sentence because of his obedience to his wife's demands. Upon her he vented his anger. He prophesied that one day she would be in his predicament.
Yesterday Miss Minnie Burns of No. 811 South Grand avenue swore to a complaint alleging that Mrs. Lee had unlawfully appropriated \$35 of her money. Detectives went to No.

City Tax Rate for This Year Dollar-Sixty; Same as Last.
The tax rate for Los Angeles for the fiscal year of 1914-15 will be the same as that of last year, \$1.60 on each \$100 of assessed valuation.
The ordinance fixing the tax rate was ready for passage by the City Council yesterday, but seven members were required to suspend the rules and place the ordinance on its passage at its first presentation, so action was delayed until this morning, when Councilman Williamson will return from his vacation long enough to meet with the Council and give the required number of members.
The limit charter rate of \$1 is set for general expenses and 60 cents is for the purpose of meeting interest and sinking fund demands on bond issues.

Assessment Would Abrogate Extension Rule.
Also Reduce Rates; Acquire Private Companies.
Council and Water Board in Joint Discussion.

A discussion considering and to some extent forecasting the abrogation of the 40-cent extension rule and the assessment of vacant lots under water service was held yesterday afternoon by the City Council and Board of Public Service in joint session. The city charter authorizes such assessment and the Council is considering the advisability of exercising the right to put the provision into effect. Figures showing how much revenue would be derived from the assessment will be available in a few days and after they have been compiled another joint meeting will be held, probably next week.
The plan is to assess all vacant lots bordering on streets now served by mains 1 cent per front foot per month, it being understood, on information from Chief Engineer Mulholland, that this rate would probably not prevail for more than two years. After that, the Chief Engineer believes, it can be reduced.
With this plan put into effect it was stated that the extension rule could and would be done away with. This rule, members of the board declared, is objectionable and obnoxious in principle, but had to be adopted as an emergency measure.
Mr. Mulholland strongly favors the assessment plan and believes to be equitable. He says that the department will be in a position, with the help of this additional revenue, to make all additional extensions needed, ultimately take over or parallel the seventeen or eighteen private water systems and reduce the rate to consumers.

WILL ACT AGAINST SELF.
That is, City Prosecutor Will If Alleged Victim of Official Fists Will Ask for Complaint—Doesn't Come.
Carl Beers, the Hollywood real estate dealer whose ear was injured in an altercation with City Prosecutor McKeeby before the latter's residence at No. 1739 Vine street, Monday night, failed to appear at the office of the City Prosecutor yesterday to secure a complaint against Mr. McKeeby. Mr. McKeeby said yesterday that he will issue the complaint against himself if Mr. Beers will ask for it.
That Mr. Beers made the first attack was the statement of Mr. McKeeby yesterday. He added that he struck only in self-defense. According to Mr. Beers's physician, Mr. McKeeby's adversary is large and in good condition to uphold his end in a flat encounter.

ANOTHER SLOGAN.
President Cole of the Chamber of Commerce will ask the board of directors today to approve the following slogan for use on all the chamber's stationery: "Arrange your 1915 vacation now. Panama-Pacific International Exposition, San Francisco; Panama-California Exposition, San Diego. See California first." It is planned to supply cuts with this slogan engraved on them to all firms and individuals who may desire to use the same on their stationery.

QUARTER MILLION A YEAR.
Mr. Mulholland's department is preparing figures to show how much vacant property is now under service. Approximately from that portion of the compilation already done, he estimates that the yearly revenue from such an assessment would be about \$240,000. With extension of

OUTSIDERS TO JOIN IN RALLY.

Other Counties Send Escort With Fredericks.

Mrs. Williams Arrives Today to End Campaign.

Grafters Now Out With "Subscription" Lists.

Two of the big meetings to be held by Capt. John D. Fredericks, Republican candidate for Governor, before his arrival in Los Angeles next Saturday, will be at Santa Barbara, where he will address what promises to be the largest political gathering ever held in that city, Thursday night, and at Ventura, where he speaks Friday night.

At Santa Barbara the Republican organizations have arranged a mass meeting at the Potter Theater. Reports from that city indicate that Fredericks is the favorite of the Republican contestants for the primary nomination and his visit will be made the occasion of an enthusiastic outpouring. When he leaves there he will be accompanied by a considerable number of his supporters, who will escort him in automobiles to Ventura.

At this latter city the Fredericks people have arranged for a Ventura parade. Ventura people will then escort the District Attorney southward on Saturday to Los Angeles, where he will arrive in the afternoon preparatory to the big meeting at Shrine Auditorium in the evening.

THOUSANDS IN PARADE. Additional hundreds of automobile owners yesterday sent word to Fredericks' headquarters that they would participate in the parade that moves through the downtown district Saturday night and disbands at the Shrine Auditorium, where Capt. Fredericks is to speak. This parade forms on Ninth street, with various divisions parked on side streets between Hill and Flower streets. Steril Booth is to be grand marshal.

The line of march is east on Ninth street to Spring street, north to First street, west to Broadway, south on Broadway to Seventh street, west to Figueroa and south to Jefferson.

Every indication is that this will be the greatest political gathering ever held in the city and will outrank the great mass meeting that greeted Capt. Fredericks at Dreamland park in San Francisco a few weeks ago.

ORGANIZATIONS IN LINE. In addition to many of the clubs and organizations that had already been assigned places in the parade and for whom banners are being provided, dozens of other organizations have asked for an assignment for their delegations. In view of the great crowd that is expected, an announcement was sent broadcast yesterday that those who desire to hear Capt. Fredericks should be in the seats not later than 7:30 o'clock. The meeting will be opened promptly at 8:30 o'clock, by which time the participants in the parade will already have been ushered into the seats reserved for them.

Also a general invitation was sent out to everybody who desires to participate in this parade. Flags will be in evidence, the route will be abuzz with red fire and many bands will play. It is expected that the parade itself will attract a great throng to the downtown district, as well as draw many to the Shrine Auditorium.

TALKS TO WOMEN. Mrs. Helen K. Williams, Republican candidate for Lieutenant-Governor, who is making one of the most spectacular campaigns in the primary contest, will arrive in Los Angeles today to wind up her campaign. She will speak at several meetings during her stay of several days and will take mostly to the women, although she is campaigning among the men as well and with a high degree of success.

Mrs. Williams is appealing to the women of Southern California of all political beliefs and predilections for support of her candidacy. While she is running only on the Republican ticket, she is setting before the women of all parties the importance of having a woman in the Lieutenant-Governor's chair who is capable of administering the duties and whose service will shed lustre upon the suffragists in this State.

The fair candidate has had good meetings during her campaign. She has spoken to thousands in all parts of the State and is nearing its conclusion with less signs of wear and tear than are exhibited by many of the candidates in the "stronger" ranks. Among the big meetings Mrs. Williams will attend here is that of the "melting pot" at Hooker gardens Saturday.

KEEP SUBSCRIPTIONS. **CHEAP POLITICIANS BUSY.**

Having been surprised in their scheme to "indure" Republican candidates for office for a cash consideration, the defunct "California Republican Federation" yesterday dropped out again upon a new guise. This time it was seeking campaign contributions from "business men." A complaint was made to the District Attorney that agents were trying to obtain money under false pretenses and the matter will be investigated.

The "Federation" is a small collection of cheap politicians, headed by Frank A. McDonald, an attorney, who has withdrawn from the contest for Assemblyman in the Sixty-first district since the expose. It was their original intention to gather in the coin by "induring" candidates, but these candidates, having been warned by the exposure of the plot in The Times, declined to loosen up. The hurried preparation of "subscription lists" followed. These lists have been peddled about the city but have not and will not be taken seriously.

The use of the name of Capt. Fredericks by this close corporation of discredited politicians is deeply resented by the Fredericks Campaign Committee. Chairman Fred C. Fairbanks last night issued a statement that no one was authorized to solicit funds for the Fredericks Campaign.

Committee except upon direct authority of the committee itself.

WOMAN DEPUTY. **FORD IN FAVOR OF IT.**

Chief Deputy District Attorney W. J. Ford stated before a large audience in El Segundo last night that he believed a woman deputy should be appointed to active service in the District Attorney's office. Ford said that many cases which are taken into the District Attorney's office can be effectively handled by a woman lawyer. "Women have come into many new spheres of activity lately," Ford stated, "and their work has been the subject of much favorable comment. Women as police officers are doing great work. Women probation officers are doing effective service, and, in my judgment, a woman can be of distinct service in certain kinds of work which comes before the District Attorney. In the eight years that I have spent in the District Attorney's office, I have effected many reconciliations between wives and husbands. I feel that this work could be best done by a woman."

Mr. Ford then spoke upon the "Duties of a District Attorney" and asked support for his candidacy on August 24th. He stated that he has had practical training in that important office.

Robinson Is Active.

O. R. W. Robinson, for eight years receiver of the United States Land Office, and Republican candidate for Congress from the Tenth District, made three coring campaign speeches last evening at Masonic Auditorium, Hyde Park Hall and Manual Arts High School. Being being one of the District Attorney's office, I have effected many reconciliations between wives and husbands. I feel that this work could be best done by a woman."

Where Shortridge Stands.

In his speech delivered at Santa Rosa last night, Samuel M. Shortridge, Republican candidate for the nomination of United States Senator, said, among other things: "It is my ambition, my friends, to perform the hard work that will confront the United States Senator in Congress. I am accustomed to hard work and I shall be free of all entanglements and obligations and be able to serve the whole people of California—to advance the interests of California's industries and to secure the development of California's mighty resources."

"California has long been in need of the services of a man who will render it and if sent to Washington as your Senator, I promise you it shall never be said of me that I merely favored legislation that is demanded for the welfare of California and her people—you will learn that I fought for it!"

Wright on the Job.

Frank E. Wright of Sacramento, Republican candidate for Surveyor-General, came into Los Angeles yesterday for his first visit this campaign. He worked his way down the valley route and will go back to the coast in a few days. He finds the sentiment strongly against the Interior, centripetal, political triad, or what, who are trying to steal Republican nominations. W. S. Kingsbury, the incumbent, who was given the position by Republicans, has been in Los Angeles for a week, but few if any of his old friends are interested, for the reason that he has dropped to the "Progressives" and is brazenly trying to get Republican support by false pretenses. All over the State Wright has found that Republicans and Democrats are making "Progressives" as well as recent crude second-story work. Wright has been deputy for years in the office to which he is now being elected. He will find easy sailing in Los Angeles among Republicans.

Close Bordwell Campaign.

Ex-Judge Walter Bordwell of this city left last evening for Ventura and Santa Barbara, where he will make his campaign for the Chief Justice of the Supreme Court. The limitations imposed by usage have prevented Bordwell from making a primary appeal to the public in behalf of the candidates for the Chief Justiceship, which was held twenty-two years ago by Chief Justice W. H. Peatty, but recently deceased. M. N. Avery, George F. Howard, William Mulholland, Elmer R. McDowell, and other prominent men composing Judge Bordwell's committee have been making every effort to further the distinguished jurist's interests in Los Angeles county, in recognition of the fact that conquest of the office of Chief Justice is in this county, where Judge Bordwell has dwelt continuously since 1888.

Knowland's "Canned Speech."

Although 500 miles away, the voice of Congressman Joseph R. Knowland, Republican candidate for United States Senator, will be heard throughout Southern California this week through the medium of a dictation record, which Mrs. Joseph R. Gibbs, vice-president of the Southern California Women's Republican Federation, is introducing to women's clubs in the State. The record, which was made in San Francisco, arrived here yesterday afternoon, and Mrs. Gibbs will leave for Santa Barbara this morning, where the "canned speech" will be released for the first time.

Political Field Cleanings.

The Women's Republican League will entertain Republican candidates for partisan offices at the weekly meeting at the Alexandria Thursday. It will be the last meeting before the primary, and scores of candidates are expected to attend. A. L. Shinn, Republican candidate for Lieutenant-Governor, will be the chief speaker. One of the big rallies of the campaign will be held tonight at Carpenter Hall, No. 115 West Jefferson street. Employees of various companies on South Alameda street were addressed at a noonday meeting yesterday by Chief Deputy District Attorney W. J. Ford, candidate for District Attorney. The meeting was advertised by the blowing of whistles at 12 o'clock, and by 1:15 about three hundred workmen gathered in the Raphael & Co. yards. Ford was well received by the men.

Samuel M. Shortridge, Republican candidate for United States Senator, was greeted last night by 1900 workmen at the Mare Island navy yard. More than 1500 veterans at the Soldiers' Home near San Francisco gave

MANY MORE SEEK YOUNG, TELLING OF MONEY GONE.

W. YOUNG, clubman and realty operator of Long Beach, erroneously reported to have been arrested Monday night, is still at large, and the pursuit of him on charges of having defrauded his clients is rapidly assuming the proportions of a hue and cry. The original amount of the alleged loot has been multiplied many times by the appearance of new complainants and the number of charges which may ultimately be lodged against the fashionable land dealer is now only guessed at by the officials of the District Attorney's office.

Several dozen new cases are declared to have been placed in the hands of Asst. Dist. Atty. Ford and many new complaints may be predicted upon them. One of these, reported by Mrs. L. Bell, is asserted to involve the loss of \$2400 on place of Long Beach realty. An official of a local trust company is said to have a list of fifty-eight similar cases, in nearly all of which the alleged losses were women.

According to the charges against Young, he varied regular operations in trust deeds with worthless checks given to his selling agents, several of whom have complained to the District Attorney's office.

the candidate an enthusiastic welcome. Reasons why Chief Deputy District Attorney W. J. Ford is widely known as a prosecutor who is not a persecutor, were detailed last night by Attorney Griffith Jones, in meetings held in Inglewood and Hyde Park. Charles D. Martindale, Republican candidate for the State Senate in the thirty-fourth district, has appointed the following campaign committee:

H. F. Scoville (chairman), W. P. Jeffries (secretary), Philo J. Beveridge, William J. Variel, George H. Royce, John H. Miller, Charles H. Maxwell, P. E. Gregory, G. B. Gehring, Los Angeles; George D. Snyder, Santa Monica; Charles H. Wiant, Charles D. Ballard, Mrs. Beth Wanda, Sawtelle; Lemoyne Ellis, Inglewood; A. Breeden, T. J. Hoyt, W. J. Hess, Redondo Beach; Samuel Davis, Sherman.

One hundred and sixty-eight members and officers of the Los Angeles Realty Board were sent out on an endorsement of Sidney L. Briggs, as candidate for Supervisor in the Third District. This action, it is explained, is taken by them as individuals, because the Los Angeles Realty Board is non-political as a body. Briggs is a prominent member of the organization and has been chairman of a number of its important committees.

Three speeches a day is the program for the campaign. The first speech was given by Sheriff Visited Pomona and other eastern foothill towns yesterday. Charles M. Belshaw, Republican candidate for Governor. Last night he spoke to 500 at Sawtelle, yesterday afternoon he spoke in San Pedro, today noon he speaks at Hughes Mill, No. 1430 South Alameda street; at 2:30 p.m. at the Los Angeles Athletic Club. Thursday he goes to Pomona, Saturday afternoon he speaks at the Hooker gardens, and at night, in Whittier.

Harry Broisaki, Republican candidate for State Senator from the Thirtieth district, has torn himself away from the organization work of the Young Republican Club long enough to campaign for himself. He spoke at Hyde Park and Inglewood last night at two big Republican meetings.

Elmer R. McDowell, candidate for Superior Judge, yesterday gave a series of brief addresses on "Better Laws for Women and Children of California" at Redondo Beach, Covina, Glendora, Azusa, San Dimas, Whittier, Pasadena, and Long Beach. Beginning early yesterday morning and last evening he delivered speeches before the Boyle Heights Civic League and at the Malabar schoolhouse.

In recent candidacy of Chief Deputy District Attorney W. J. Ford for the Theatrical Managers' Association.

Justice J. W. Summerfield was given a surprise party at his home last evening by 150 or more friends. After the candidate for Superior Judge had made a speech, the merry-makers tangoed, maxixed and did other fancy steps.

A Republican meeting last night at the Manual Arts High School, was one of the largest of the present campaign, about 1400 persons being present. Several candidates spoke. The meeting was under the auspices of the Seventy-second district organization.

Judge Leslie R. Hewitt returned at midnight Sunday from a week's outing at Pinesrest, and a few hours later was at his home in the city.

Judge Grant Jackson will speak at the picnic of the Hungarian-Jewish Sick Benefit Association at Schuetzen Park next Sunday.

Frank W. Blair, Deputy District Attorney and candidate for Superior Judge, is booked for a number of speeches. He speaks at the Washington school this evening; at the Cahuena school and Cole's Hall, Colton, Thursday evening; at Wilcox Hall, Hollywood, Friday evening, and at the Art Theater, Redondo Beach, next Monday evening.

A score of candidates will be entertained tonight at the Los Angeles Athletic Club. A banquet will be followed by a burlesque performance, in which all the principal parts will be played by the seekers after office.

Judge Frank R. Willis yesterday visited the Los Angeles Athletic Club.

Stomachs Kept Doctor Busy

"An old-fashioned doctor, a number of years ago, told us stomachs kept him busy. And he argued that a more conscientious care of the stomach would practically put his profession out of commission."—National Food Journal, June, 1914.

It was a new process of milling that had considerable to do with keeping this old doctor on the jump. This process—which made flour look white and pretty—unfortunately removed nearly all of the really vital mineral elements of the wheat—the invaluable phosphate of potash, etc.

This kind of milling has now become almost universal. Think what it means to deprive the system of these elements which are necessary for its daily rebuilding?

Grape-Nuts

made of wheat and barley, contains all the nutriment of the grains, including the mineral elements. Many forms of stomach trouble are due to a lack of these elements in daily food; and a regular ration of Grape-Nuts and cream along with other food is admirable to set one right.

FUNERAL OF PIONEER.

Mrs. Holbrook, Sixty Years in California, Who Passed Away Sunday, Is Laid to Rest.

One of California's pioneers, Mrs. J. F. Holbrook, nee Adams, of No. 1929 Westlake avenue, who passed away Sunday, was yesterday laid to rest at Rosedale cemetery. Funeral services were held at the Breese undertaking parlors, only immediate friends of the family being present. A complication of diseases was responsible for her death.

Mrs. Holbrook is survived by her husband, J. F. Holbrook; a son, J. W. Holbrook, head of the J. F. Holbrook Manufacturing Company, and a daughter, Mrs. C. W. Nowlin.

Born in Jeffersonville, Mo., in 1855, she was brought across the plains when J. F. Holbrook, then a young man, was an old-fashioned "prairie schooner" driver. They settled in San Jose, but in 1867 moved to Los Angeles. In 1874 she was married to J. F. Holbrook. Two of their four children died.

Mrs. Holbrook was possessed of happy and kindly domestic traits, and although her circle of acquaintances was not a very large one, those who knew her developed a high degree of friendship for her.

tion of the law the human note dominates.

Charles H. Randall, once a Republican, then a "Progressive," now a Prohibitionist and possibly a future Democrat, is running on all four tickets in the Ninth Congressional District. He has answered Dudley W. Robinson, Republican candidate for Congress in the same district, who was curious to know how Randall could stand on all tickets without having allegiance for any. The stock reply of the "Progressives" that Republicans in the past ran on more than one ticket is included in the reply. He says he shall not oppose President Wilson, that he has no quarrel with the "Progressives." "I was voting the Republican ticket and writing Republican editorials when you were still making mud pies," he adds. He was the first secretary of the Lincoln-Roosevelt League. He says he stands first for the destruction of the liquor traffic and comes right back at Robinson with a query as to where he stands upon that all-important question.

The registrar of voters is sending out sample ballots to every registered voter in Los Angeles county. The service costs \$2300 for postage alone. The literature which must be sent to the voters a few days preceding the general election will cost the county \$12,000 in stamps and the State will pay \$50,000 for postage. That's a pretty hard jolt.

The women are going to have one mighty blast before this primary campaign is over. Next Saturday the "melting pot" will boil at the Hooker gardens on West Adams street, near Grand avenue, when candidates of all parties will be expected to show just how much they really care for the support of the women voters. It will be a sacrificial affair in which women of California who have won suffrage will be expected to donate valuables to the cause of helping struggling sisters in seven other States to gain the right to vote this fall. The men, too, who monopolize the privilege of running for office will be expected to do their part.

THE WATCHMAN.

FREE LAND FOR CITIZENS.

Santa Barbara Forest Reserve Open for Settlement—Many Applications Are on File.

Yesterday was the first day on which, under the orders of the Secretary of the Interior, settlement could be made in the land thrown open to the public in the Santa Barbara National Forest, and there were several applications at the office of the Registrar and Receiver. The land will be open for entry September 8.

The area eliminated from the forest reserve consists of 215,480 acres, and is not available for forest purposes, as the timber is small and sparse. The supply of water is uncertain and, although some of the land is available for agricultural purposes, the greater part of it is not, and could only be made so by the development of a water supply.

It is desirable that inquiry on the part of expected entrants be made at the local Land Office as soon as it is convenient to do so, as a considerable portion is not subject to settlement or entry, being included in entries, selections, etc., under the public land laws and in petroleum withdrawals. The land is located in the counties of Santa Barbara, San Luis Obispo, Los Angeles, Kern and Ventura.

LITTLE GAS SELLS AUTO.

Economy Demonstration Puts the Deal Over.

Plenty Business Is Record for Small Car.

De Lage Pilot that Was Now Is Busy Dealer.

Herbert Brown, local distributor for the Car-Nation, made a pleasing demonstration of the Car-Nation's merits to W. L. Armstrong of this city last week, when he drove one of the little cars to Redondo and back, averaging twenty-seven miles to the gallon of gasoline. After the return trip was completed Armstrong wrote out a check for the purchase price of the car.

One week after the first carload of Car-Nations had been received in this city, the next month's allotment had been sold to purchasers who contracted for the outside territory. According to Brown, only a few sections of Southern California are yet open to agents and from now on the retail trade will secure the attention of the local agency.

The Car-Nation is a practical small automobile. Powered by a four-cylinder motor which develops twenty horse power, the new arrival is able to take the hills without trouble. The Car-Nation has a quick getaway, being very light.

The Car-Nation now sells for \$580 delivered in Los Angeles, and with the new price the dealers expect to place hundreds of the little cars in Southern California territory.

Omar Toft, of De Lage racing fame, who has contracted for the San Diego territory, wired the local Car-Nation dealers that he wanted the first four cars to be unloaded from the next shipment, as he had orders already for them. Toft drove one of the little cars to San Diego last week and made an average of twenty-six miles to the gallon of gasoline for the entire distance.

BABY SPEEDSTER SLATED FOR RUN.

WHEN CHECKED FOR SPEED AUTO RIPS OFF FAST PACE IN PRACTICE.

It has been announced that the little Metz is to be a contender for honors in the Phoenix road race next November.

As soon as the official announcement of the race was made by Leon T. Shettler, the local Grant agent, the Metz people got busy and now two cars are being fitted for the great desert struggle.

The Metz has figured prominently in a number of road races in the East this season and has won a lion's share of all the hill-climbing glory and it is believed that the little car will be able to give an excellent account of itself in the Phoenix race this fall.

A Metz car fitted with a Master carburetor and geared for speed was tested by experts of the local Metz branch last week and the car showed a speed of fifty-seven miles an hour. This should be fast enough for a good showing.

LITTLE MOTOR CAR ON MOUNTAIN RUN.

FULLERTON AUTOIST DRIVES OVER STEEP TRAIL WITH GRANT.

F. W. West of Fullerton created a sensation at Camp Baldy last Sunday when he drove into camp in his little Grant car, accompanied by his wife and daughter.

Not only was West's Grant the only small car in camp, but it was the first machine of that make to visit the popular mountain resort. The owner reported an easy drive up the mountain side and said that the little car proved that it was good for anything from deer-hunting to transcontinental touring.

While at Camp Baldy, West removed the hood and exhibited the engine of his car to a number of interested spectators who had heard of the Grant, but had not seen one at close range, as the car is practically a new arrival among the Southern California motor car colony.

The Grant on the trail.

F. W. West of Fullerton at Camp Baldy last Sunday in his little Grant car with Mrs. West and daughter. The Grant was the only small car in camp and the Fullerton man is credited with having piloted the first Grant over the mountain drive to the popular resort.

TRUCK RUN ENDS IN A DEAD HEAT.

EIGHT MACHINES SHAKE THE HONORS OF THE BIG CONTEST.

The motor-truck reliability run to Riverside and return ended in a double dead heat. Eight trucks finished with perfect scores. Four ties occurred in class A, 1500 pounds and under, and there were also four ties in class B, trucks of 1601 to 3000 pounds.

The two winning trucks did not finish with perfect scores, but both closed the argument with high averages. The Moore No. 17 won the trophy in class C for trucks of 3001 to 6000 pounds capacity, and the heavyweight White No. 33 captured the honors in class D. The White finished with an average of 583 and the Moore was credited with a score of 592.

The tied trucks are:
Class A, 1500 pounds and under:
No. 1—Moreland 1000
No. 10—International 1000
No. 11—International 1000
No. 20—Menominee 1000
Class B, 1601 to 3000 pounds:
No. 3—Moreland 1000
No. 4—Black 1000
No. 16—Republio 1000
No. 19—White 1000

JIM JEFFRIES AND FRIENDS GET DEER.

PARTY OF FIVE KILL THREE BUCKS IN THE TE-HACHAPIS.

Big Jim Jeffries and Warren Hopstead returned yesterday morning from Phil Fickert's ranch in the Te-hachapi Mountains with three fine bucks. There were five in the party and reported plenty of deer, but the weather was hot and Jim says he surely worked hard to land his buck.

There was a three, four and five pointer in the bunch and the largest weighed about 140 pounds. Jeff intends to have the largest head mounted and if it turns out well, will send it to Bob Edgren, the eastern sporting writer, who is an old friend of the big fellow.

Jeff is as tanned as an Indian and said the outing put him in great condition. He immediately cut his buck up and sent the choicest quarter to his old partner, Jack Kipper.

JACK DIELMANN GETS BIG BUCK.

RUNS UPON THREE DEER AND BRINGS ONE DOWN WITH FIRST SHOT.

Jack Dielmann puts in a claim for the largest buck of the season, having brought back a 208-pound buck from the mountains back of Calabasas. The local automobile man was not fifteen minutes from camp when he sighted three magnificent bucks. The leader approached within 150 feet of him and the first shot brought Dielmann his first deer. The head will be mounted. The antlers are large and as fine as have been brought in this season.

THREE AMATEURS QUALIFY IN OPEN GOLF TOURNEY.

[BY A. P. NIGHT WIRE.]

CHICAGO, Aug. 18.—Three amateurs, including Francis Ouimet, the title holder, were among the thirty-two men who qualified today for the national open golf championship at Midlothian Country Club. Ouimet, playing steadily but not brilliantly, took 148 strokes for the thirty-six holes, two higher than the medal score of the day, made by James Barnes of White Marsh Club, Philadelphia.

Warren K. Wood of Homewood Club, Chicago, formerly western amateur champion, and W. Rautenbusch, amateur champion of Chicago, were the other two amateurs to qualify, outstripping many professionals with 155 each. Thirty-two more players will qualify tomorrow and the sixty-four survivors from the 132 entered will contest at thirty-two holes medal play on Thursday and Friday.

A stiff breeze and scorching sun today ran the scores higher than had been expected, but the only great up-

FILM SENSATION MOTOR CAR EDUCATION STUNT.

ONE of the greatest feature film productions ever shown in Los Angeles was exhibited at the Hotel Alexandria yesterday.

About 100 automobile men saw the first run in this city of the five-reel Esmanay sensation, entitled "From Molten Steel to Automobile," which pictures the building of the Maxwell motor car from the first metal workings through the parts-making, assembling, testing and operating on the roads.

Ray Peed, representing the Maxwell factory, staged the show. All the Maxwell agents of Southern California were the guests of the Maxwell Motor Company of Detroit and the Lord Motor Car Company, Southern California distributors for the line, at a luncheon at the Alexandria, where the Maxwell movies were exhibited.

During the afternoon one of the new 1915 Maxwells was on exhibition in the Alexandria lobby and the hotel swarmed with motor fans of both masculine and feminine gender.

Following the luncheon, T. J. Toner, district sales manager for the Maxwell company, was introduced by F. A. Lord. Toner made a short, snappy talk on motor car conditions in general.

FORD SALES CLIMBING UP.

It is claimed by experts that the output of the Ford Company for the twelve months from August 1, 1914 to August 1, 1915, will exceed the desired number, 500,000 model T cars.

The Ford Company put out something like 251,000 cars during the last fiscal year and with the reduced prices and the profit-sharing rebate, the 500,000 mark should be reached this season with little difficulty.

It is claimed that for the past two weeks an average of 133 Ford cars a day have been sold in California. Almost 4000 cars a month, almost 50,000 Fords a year for California.

General and the Maxwell line in particular.

Every operation in the manufacture of a complete Maxwell car is shown in the 175,000 feet of film.

The reels were made by the Esmanay company for the Maxwell corporation. The actual cost for making the reels is rated at \$35,000 and it is estimated that \$150,000 will not cover the expense of the film production to the Maxwell company.

The scenes cover an area the width of the continent. Special scenes show Teddy Tetslaff and Billy Carlson in the Maxwell racers at Indianapolis, touring parties on scenic Southern California highways and rough mountain roads.

Forty trained technical men have been sent out to accompany the films and the company's operators as lecturers. An elaborate advertising campaign is now in progress and the motor car educational feature is to be shown in the largest motion picture houses throughout the United States.

PIRATE RECRUITS DON'T LAST LONG.

Two Pittsburgh recruits got short shrift. They were Pitcher Mauger, taken on after the Cubs released him, and Outsider Shafer, secured from the defunct Huntington club of the Ohio State League. One looking over and Fred Clarke decided they had nothing that would help the lowly Pirates.

GET DOWN TO FACTS AND EXAMINE THIS METZ SPEEDSTER CAREFULLY

Equipped as shown, \$885.00 F. O. B. Los Angeles

Compare it point for point with other low priced cars, and you will realize that it is built and equipped like a high priced speed car. It has real class.

The general run of low priced cars offer you a low speed forward transmission only. You cannot get joy to the full the numerous mountain drives in this beautiful country if you are constantly worried about making the hills on high or overloading your motor in low.

But the METZ SPEEDSTER has a Four-Speed forward transmission. No worry about climbing hills or overheating the engine. The Metz Speedster mission gives you a speed for every hill grade, and you can enjoy your ride free from "dribbling" brakes. And so it is all the way through with the METZ SPEEDSTER—(1) Fender built strong, double braced and noiseless; no squeak, squeal, rattle, to mar the pleasure of your steady ride. (2) Bosch high tension magneto on your Metz Speedster. Metz full elliptic springs, easy riding under all conditions. No hard jolts and unpleasant side sways to worry you.

Come in and examine the Metz and you will realize what a good car we are offering you for the money and something different from the ordinary cheap cars.

KID M'COY TO
FIGHT AGAIN.

BY A. P. NIGHT WIRE.

SAN FRANCISCO, Aug. 18.—
Norman Selby, better known as
"Kid McCoy," the old-time
light heavyweight pugilist, will
try to come back. Articles
were signed today between him
and Charley Horn for a four-
round bout here September 4.

There will be no more hunting on
the Maier ranch. Maier is not ex-
actly superstitious, but every quest for
deer there has been followed by some
sort of bad luck. The last stroke of
misfortune was the death of Missouri
King, the famous five-gaited saddle
horse, following the last hunt. Learn-
ing of this, Maier issued the dictum
that the deer on the ranch remain un-
molested for the remainder of the
shootin' season.

Maier issued a denial of the report
that the Chicago White Sox had ex-
ercised their option on the Venice club
by selecting Dick Bayless. He states
that he has received no word from
Comiskey relative to the matter. It
is regarded as a foregone conclusion,
however, that the Sox will take either
Bayless or Kieffer.

Three for One Deal.
If the National Commission is to be
believed, "Doc" White was secured by
the Venice club at tremendous cost.
In a recent bulletin issued by that
body, it is stated that the White Sox,
in return for White, are to have the
privilege of picking one player from

the Tigers, not only this year, but
in 1915 and 1916.

Concerning Peasants.
A gentleman from New York, sign-
ing himself as "A Visitor," meaning
a tourist, complains bitterly regard-
ing the peasant evil, as follows:
"I wish to complain about the ped-
dlers and barkers who sell anything
from a peanut to a glass of lemonade
at the ball park. We pay our good
money to see a ball game, and are
compelled to act as waiters by passing
along this and passing along that, and
so often miss a fine play. I would

suggest that the managers of the
grounds put up a bargain basket to
be sold at the entrance to the seats
and containing any, peanuts, soft
drinks and ice cream. This would
save all the commission paid to the
barkers, and give the paying public a
chance to see the game in peace."

The idea of establishing a lar-
ger, or commissary department, is excellent,
although a bit hard on the barkers,
who have spent years in developing
their voices.

Not only would this be more con-
venient, but it would permit of a
larger and more varied bill of fare.

BROWNS SMOTHERED
BY THE SENATORS.

WASHINGTON, Aug. 18.—Wash-
ington won today's game from St.
Louis, 8 to 2. For six innings Ham-
ilton pitched good ball, but he weak-
ened in the seventh, and three hits
brought in the winning runs. The
locals scored five more runs in the
eighth on four singles off Hamilton and
James, a sacrifice and an error.

NEW YORK, Aug. 18.—Cleveland
won the first game of the series from
New York by a score of 4 to 3. The
visitors batted Cole out of the box in
the third inning, while Higginson,
though wild, was effective in the
pinches and held New York to four
hits. Score:

CUBS APPARENTLY

DUNN AND KILBANE BOOST BEECHER.

CHAMPION CLAIMS WILLIE CAN GO THE ROUTE WITH THE BEST.

Jimmy Dunn, manager of Champion Kilbane, who saw the Beecher-Britton contest in New York, says the New Yorker the greatest kind of a boost to Uncle Tom when he says Beecher is a great fighter; I saw him knock Britton down three times in the New York bout; and I was sitting on him when he fought Red Watson. Champion Kilbane, too, had a good word for Willie Beecher. Tom Mahon and George Chip, who were at the fight, also gave him a good word. The claim that Tom Mahon was surely whipped Gunboat Smith, and that Willie Beecher stands a great chance of whipping any lightweight in the world.

The Public Service.

SUMMARY OF THE DAY.

A document purporting to be a \$1000 storm sewer bond of the issue of 1913 turned up at the Mayor's office yesterday, having been sent here by a boy who found the document on a vacant lot in Chicago. It is being held in the vault of the City Treasury.

The Police Commission yesterday closed two more blocks in the business district to the issuance of further liquor permits.

Councilman Conwell yesterday proposed that the Board of Education appropriate money to be turned over to the city to create a "school fund" and that the city will then pay from this fund the salaries of the members of the Board of Education.

The Public Safety Committee yesterday recommended that the City Council as a committee of the whole shall have a public hearing on the subject of permitting erection of marquees over sidewalks.

An echo of the European war was heard in the local courts when the defendants in a suit over a promissory note asked a time allowance for the arrival in this country of an English syndicate which had been somewhat hindered in leaving England because of the war. It was granted.

At the City Hall.

QUANDARY OVER ONE STRAY BOND.

DOCUMENT PURPORTS TO CALL FOR THOUSAND DOLLARS.

Found in Vacant Lot by Chicago Office Boy, It Is Sent to Mayor of Los Angeles and After Scrutiny It Now Rests in Vault of the City Treasury.

A game of "catch" on a vacant lot in Chicago was the means of putting Los Angeles city officials in a quandary. It's all about a document that purports to be a \$1000 Los Angeles storm sewer bond.

When a group of lads were playing "catch" in the "Windy City" one of them, an office boy named Porter L. Leach of No. 1110 East Forty-second street, discovered a piece of paper that looked like a bond with a money value. Upon investigation it proved to be what purports to represent a \$1000 storm sewer bond of this city of the issue of 1913.

The last sent the document to the Mayor of Los Angeles. It is being held here yesterday morning, and created a mild sensation, as the city officials were unable to determine its exact status.

The paper has the appearance of being fresh and unused, but the signatures appearing on it are of a different character. Some of the city officials believe that the portions of the signatures were written in after the bond was purchased, and that they were all written by one person.

The bond is in the regular legal form, similar to the others of this issue, but instead of bearing one of the consecutive numbers it has the number "999." From this circumstance it is believed by some that the paper had been used by a salesman as a sample, and then had been obtained by some one who had filled in names for the purpose of making it appear of value. One row of coupons is attached to it.

It is not probable that anyone who is at all familiar with bond buying would "fall" for the investment of any money for this paper.

ACTION ON PERMITS.

POLICE COMMISSION'S ORIST.

The Police Commission at yesterday's session denied the application of Jules Domic to transfer his saloon permit from No. 228 Aliso street, to No. 718 South Main street. This latter block was ordered closed to the issuance of further liquor permits. Seventy-five per cent of the eligible frontage on the block was required on the petition to close the block. Out of 1238.38 feet of frontage in the block only 543.72 was eligible to sign the petition.

The commission granted a transfer of the saloon permit held by Dan Pitts for No. 901 East First street, to Albert Lane.

The application of Henry Helpin for a wholesale liquor permit for No. 419 West Eighth street, was denied. Eighth street, between Hill and Olive streets was ordered closed, as 56 per cent of the eligible frontage petitioned for the closing. Out of 954.51 feet of frontage only 534.5 was eligible to sign.

A transfer was granted for the saloon permit held by William Concanon for No. 100 East Eighth street, to Concanon & Concanon. John M. Concanon, a sign of the saloon proprietor, being taken into the business as a partner.

The wholesale liquor permit of Casimir Mastor for No. 122 East Fifth street was transferred to Jacob Schein.

The commission granted a transfer of a No. 2 restaurant liquor permit for No. 118 North Spring street, from Condra & Benurates to Fidel Benurates.

JUST LIKE THAT.

Councilman Conwell evolved a brilliant idea yesterday, whereby the city may pay to the members of the Board of Education their regular salary stipends, and all may be peaceful and harmonious again.

For several years the city has been paying these salaries, although the affairs of the Los Angeles school district are absolutely separated from those of the municipality. This year the Council decided that it would make no further payment of this character. The city charter provides that these salaries shall be paid from the "school fund." The city has no such fund. His plan is that the Board of Education be sent the suggestion that it appropriate \$4200 to the city for the purpose of establishing a "school fund" then the Council will turn around and allow the board's salary list from this fund.

SUPPRESS HOODLUMS.

POLICE DEPARTMENT UPHOLD. Recently a protest was filed from persons in the vicinity of Central and Vernon avenues against the alleged

undue interference of patrolmen with boys and young men of the neighborhood. The protest undertook to set up that a state of affairs existed in that neighborhood, wherein the patrolmen persecuted the youth of the neighborhood.

The reverse side of the narrative was presented yesterday when the various patrolmen who have operated in the neighborhood filed with the Police Commission their reports of occurrences in the district. They allege that young men and boys block the sidewalks and cause women and girls to take to the streets; that there have been much annoyance to pedestrians by loiterers on the walks, etc., and vulgarly to passers-by.

The commission filed the protest and President Whiffen, who is acting Mayor, urged the police department to proceed with the work of clearing up the streets from objectionable gatherings.

PLEA FOR SAFETY.

CONDUITS FOR WIRES URGED.

Commissioner Yates of the fire department and Fire Chief Eley appeared before the Public Safety Committee of the City Council yesterday to urge that a recommendation be made for the adoption of a proposed ordinance regulating the installation of electric wiring in conduits when such wiring is introduced into dwellings.

The provision proposed is as follows: "All wires hereafter installed in or on all buildings or other structures in the city of Los Angeles, as the same are now or may hereafter be defined in the building law of the city of Los Angeles, and used for the purpose of conducting electricity, shall be enclosed in approved conduits or armored cables."

Commissioner Yates stated that he attributed eighty-two fires since January 1 to electric wiring, and that it was admitted by the City Electrician that 25 per cent of the fires in this city are from this cause. Fire Chief Eley urged that immediate action be taken to provide for the use of conduits.

The subject was referred to the City Electrician for a report and recommendation.

THOSE MARQUEES.

PUBLIC HEARING ON THEM.

All the communications for and against the maintenance of marquees, and the proponents and opponents are to go before the Council as a committee of the whole, at a date to be fixed by the Council this week. This was the decision of the Public Safety Committee yesterday, when the petition of various architects asking for a hearing was before it.

There is a general sentiment among members of the Council that not only should the erection of marquees over the public sidewalks be forbidden, but that those now in existence should be taken down, if there is any legal way by which they can be accomplished. The objection is that they are used for advertising purposes and form an objectionable break in the street lines.

City Hall Brevities.

The Public Welfare Committee yesterday recommended that the Council adopt an ordinance providing that the owners of buildings or blocks of liquor permits shall be required to certify as to their eligibility to sign such petitions. At present the burden of determining such qualifications falls upon the police department.

The Berlin Dye Works has secured a majority of the frontage in the block where it is located, Washington and Griffith avenues, its petition asking for exemption from the residence district. The Public Welfare Committee yesterday recommended that the City Attorney prepare the ordinance making such an exception.

By instruction of the Police Commission, all permits for amateur boxing contests issued by the secretary of the commission contain the notification that all "battles royal" are prohibited.

The Police Commission yesterday approved the action of Chief of Police Sebastian in suspending Sergeant August W. Hartmeyer for action unbecoming an officer.

William Nies and R. V. Cram have been appointed special police officers for the South Park Improvement Association. The Police Commission yesterday approved these appointments.

Plaza Street Slocum has offered to lease to the police department a motor boat for use in patrolling the harbor. The Police Commission yesterday presented this offer to the Police Commission with the recommendation that it be favorably considered, putting out that the commerce and shipping of the harbor has increased 100 per cent in the past year and that it is necessary that police patrol be provided for the harbor. The subject was referred to the City Council.

The Board of Public Works yesterday awarded to E. L. Plantino the contract for the paving of Fifty-fourth street, from Normandie to Western boulevard, a distance of 1100 feet. It is allowed eighty days within which to complete the work.

City Auditor Myers yesterday asked the Board of Public Works to provide fire escapes and make repairs on the rooms in the City Hall attic used by the departmental audit staff of his office. He stated that the staff would be in serious jeopardy should a fire break out on the fourth floor of the City Hall. The building department has been asked to make estimates as to the cost of the required fire escapes and repairs.

A mammoth petition was filed with the City Clerk yesterday, asking for the opening of Long Beach avenue, from Washington street to Sluison avenue. The petition is said to contain approximately 57,748 feet of frontage on this proposed opening, and represents 966 parcels of land, which is said to be 85 per cent of all the residence property there.

The Police Commission yesterday ordered that citations be issued for the violation of the ordinance prohibiting the operation of Messenger Service, No. 115 East Fifth street, to answer to the charge that the employees conducting illicit traffic in drugs. The hearing is set for the forenoon of September 9.

CARELESSNESS COMES HIGH.

Alleged Frame-up of Political Enemy Costs Man Term in San Quentin.

"I got kind of careless and a political enemy urged me to raise some money by organizing the horse," explained Ed Bennett in Judge William Court yesterday when applying for probation. The defendant admitted the obtaining of the money under false pretenses, but said that it was merely a slip and would not occur again.

"It will not happen for two years and a half," remarked Judge Willis as he imposed sentence in San Quentin for that length of time.

ECHO OF WAR MADE ISSUE.

PREVENTS ENGLISH SYNDICATE ARRIVING HERE.

Defendant in Suit Involving Promissory Note Asks Case Be Suspended Until Party Can Land in This Country—Time Allowance Is Granted Him.

The war of the nations has seriously interfered with the departure from Europe to this country of an English syndicate which is handling the financial end of the Pacific Steel Company of California. An affidavit filed in Judge Work's court yesterday by Attorney Clark, counsel for Harry White, the defendant in the suit brought by L. D. Goddard, involving a promissory note for \$600, makes an issue of the war in his effort to have the case continued until Mr. White can be reached.

Mr. White, it is declared, was called to Seattle July 15 and was inducted by C. W. French, chairman of the board of directors of the Pacific Steel Company, to accompany him to Pittsburgh, where it was arranged to meet the English syndicate this week. Mr. French left this city for Pittsburgh July 26 in his private car, The Convey, going via Seattle and Vancouver.

"Due to war conditions recently developed," the affidavit states, "the English syndicate has been prevented from leaving England as soon as it expected." It was declared that the syndicate cannot reach Pittsburgh before September 1. It was further stated that upon the arrival of the syndicate at Pittsburgh, the members will come on to Los Angeles to investigate the company in connection with the Pacific Steel Company. Mr. White is interested in the corporation and his testimony in the suit covered the note, its consideration and the corporation was unable to pay the agreed price.

THE CONTRACT PRICE OF THE factory was \$12,500. Construction was completed in 1907. The defendant, Mr. Goddard, demanded \$2000 as provided for in the agreement and was informed the alleged that there was not sufficient funds and that the corporation was unable to pay the agreed price.

HOME FOR LIFE.

FATHER PROVIDED FOR.

As long as he lives Alonzo N. Wright, 80 years old, will be provided with a home. This provision for his comfort is made in the will of his daughter, Mrs. Lottie Wright, who died last week on the 11th inst., leaving an estate valued at \$51,400.

She leaves the home place at No. 311 Congress place to her father, and her son, the latter, Irving W. Benton. At the death of her father the property goes to the son. The residue of the estate in bequeathed to the son in trust until he reaches the age of 35 years. If he should die without issue, relatives of Mrs. Benton's husband are bequeathed legacies.

Mrs. Benton's estate consists of cash, oil and railroad stock, business property in Pasadena, the latter valued at \$20,000, and the home place worth \$1500.

CASES SETTLED.

TWO JUDGMENTS RENDERED. D. M. McDonald, defendant in an action brought by George Hinman to recover \$2900, was awarded judgment yesterday by Judge Shenk. In his complaint Mr. Hinman alleged that the defendant had received the possession of \$2900 belonging to the plaintiff. He further charged that Mr. McDonald, acting as his agent, had received \$16000 worth of Mr. Hinman's property, and that he refused to return either the money or the property. In his defense, McDonald stated that he had borrowed the \$2900 four years previously from the plaintiff.

Judge Shenk also rendered judgment for the plaintiff in the suit brought by the Los Angeles Trust and Savings Bank, as administrator of the estate of Alfred A. Martin, to collect on a promissory note given by Harry Lee and endorsed by Henry George Robert Lee.

Former Accuser Accused.

Woman Who Sued Pastor for Slander Charged With Obtaining Money Falsely.

Mrs. Dorothy A. J. McCartney, who last February filed suit in the Superior Court against Rev. Carroll S. Maddox, pastor of the First Baptist Church of Santa Monica, and two members of the church for \$25,000 damages each for alleged slander, was taken before Judge Craig yesterday on a charge of having obtained money under false pretenses.

She pleaded not guilty and her trial was set for October 14. She expressed confidence of acquittal.

Mrs. Abbie R. Fleetwood charged Mrs. McCartney with having lured to her an apartment-house which, Mrs. Fleetwood charges, Mrs. McCartney does not own.

On November 30, 1912, Mrs. McCartney charged in her slander suit, Mrs. Luella Howland and James A. Howland attended a church service and announced that Mrs. McCartney was planning to sell her daughter, Estelle, 13 years of age. The pastor offered a prayer for the young girl and Mrs. McCartney charged that the young girl was in great danger which her mother alleged was untrue.

OVERALLS COST PAROLE.

Found to be Bulging Officers Investigate and Find Automobile Accessories—Believed to be Fence.

A bulging pair of overalls proved the undoing of Leo Andrews, accused of violating his parole, according to the testimony of Detectives McNamara and Ervin in Judge Willis's court yesterday.

Andrews was arrested in San Diego because he could not satisfactorily account for the presence of automobile lamps, inner tubes and other accessories that the officers found in his overalls which he carried over his shoulder after tying the legs so his possessions would not fall out.

The Mrs. McCartney charged, she declared that Andrews had been under surveillance for some time under suspicion as a "fence" for automobile thieves. He was arrested on a charge of receiving stolen goods last month and was released July 17. The testimony yesterday showed he began his old manner of life within a week. The case was continued until September 1 for further investigation.

RICCARDI ARRAIGNED.

C. V. Riccardi, attorney, who returned to Los Angeles Sunday after an absence of six months to face a charge of embezzlement, was arraigned before Justice Young yesterday. The latter set the preliminary examination of Riccardi for August 31 at 2 o'clock p.m. Bail of \$5000 remained unchanged. Riccardi is alleged to have embezzled \$2981.75 from William E. Shaw, December 24, 1913.
